**Subject:** Northern Pass Consultation Update  
**Date:** Friday, March 16, 2012 10:17:00 AM

---

Mr. Tur,

To update you on the Northern Pass transmission line project, at Northern Pass's request Ecology and Environment's winter survey efforts were postponed until next winter. As a result, we will not have any data to provide to the USFWS for winter surveys this year, as none were conducted. We anticipate that the project and our field efforts will resume in late summer of this year. We are currently coordinating with DOE to determine how to proceed with agency consultation for the spring and summer surveys and we will keep you apprised of any changes to the schedule or project description as the details are provided to us.

Thank you for your help with the project to date. We look forward to continuing to work with you on this project when it resumes.

Regards,  
Courtney
