Re: Northern Pass Transmission LLC
Docket Number PP-371
Owner Name Change

Dear Mr. Mills:

On April 29, 2015, at its annual meeting of shareholders, Northeast Utilities, the ultimate parent of Northern Pass Transmission LLC, changed its name to Eversource Energy. NU Transmission Ventures, Inc., which directly and wholly owns Northern Pass, has changed its name to Eversource Energy Transmission Ventures, Inc. Northern Pass is not changing its name.

In our filings in this proceeding, Northern Pass refers from time to time to other affiliated companies that are or will be affected by the name changes that are underway. Most notably, Public Service Company of New Hampshire is not changing its legal name, but it has begun doing business as Eversource Energy. Northeast Utilities Service Company, or NUSCO, will change its legal name to Eversource Energy Service Company on June 30, 2015.

In future submissions in this proceeding, we will use the new names of affected companies. None of the name changes reflect changes in ownership.

Please do not hesitate to let me know if you have any questions about the foregoing.

Very truly yours,

Mary Anne Sullivan
